Tom Vancore Rock Dust Local

Dear remineralization professional,

I hope that your company has a stellar year to come in 2024! After decades of preparation, the moment has arrived for regenerative agriculture.

Now is the perfect time to further promote your company's plans for 2024 with all the benefits of a listing in the RTE Resource Directory on the Remineralize the Earth website.

Since 1996 our nonprofit, Remineralize the Earth (RTE), has focused on the critical role of soil remineralization with finely ground rock dust, sea minerals and other natural means to increase the health, growth and nutrient value of all plant life, as well as stabilize the climate.

RTE remains a leading resource for the research, development, and application of remineralization know-how for gardeners, farmers, scientists, and policy makers. The RTE website is the primary network of remineralization projects and initiatives worldwide.

Because the success of your company and its products is also crucial to the fulfillment of our own mission – the regeneration of soil vitality through the application of the highest quality minerals and trace elements – we have created the RTE Resource Directory.

If you become an RTE Sponsor you will be supporting the genuine need and profound global impact of remineralization and creating lasting value through your tax-deductible contribution. We at RTE are so grateful for your contribution, which furthers the expansion of remineralization worldwide through our diverse projects. We look forward to working together with you and your company.

For a remineralized Earth,

Joanna Campe

Founder and Executive Director

RESOURCE DIRECTORY

The RTE Resource directory is a list of companies that offer products for remineralizing gardens and farms, orchards, landscaping, permaculture, and more.

Products and sources are listed by region.

We look forward to hearing from you and having your company featured in the RTE Resource Directory.

Please consider joining forces with us by becoming a sponsor!

RTE Resource Directory Payment Information

Many thanks to all our wonderful Resource Directory participants and sponsors alike! Your generous annual contribution empowers and sustains remineralization efforts in agriculture, forestry, and climate stabilization worldwide each year.

Check or Money Order

Preferred Method of Payment: Make payable to "Remineralize the Earth" and send along with either a listing or sponsorship form to:

Remineralize the Earth 152 South Street Northampton, MA. 01060-4021

Credit or Debit Card

RTE accepts all major credit and debit cards. Just click the "Donate Now" link on the <u>RTE homepage</u> to use the card of your choice.

PayPal

Your choice to use PayPal is also welcome at RTE. Simply go to your PayPal account and send donations to jcampe@remineralize.org.

TAX DEDUCTIBLE: Remineralize the Earth, Inc., is a 501(c)3 nonprofit organization (EIN 22-3411880) therefore all listings and sponsorships to RTE after \$50 are fully tax-deductible according to the maximum allowed by current US tax regulation.
