Co-author of "The Survival of Civilization"

Tom Vancore

Rock Dust Local

Ishfaq A. Mir, Ph.D.,

Geological Society of India

Dear remineralization professional,

I hope that your company has a stellar year to come in 2026! After decades of preparation, the moment has arrived for regenerative agriculture.

Now is the perfect time to further promote your company's plans for 2026 with all the benefits of a listing in the RTE Resource Directory on the Remineralize the Earth website.

Since 1996, our nonprofit, Remineralize the Earth (RTE), has focused on the critical role of soil remineralization with finely ground rock dust, sea minerals and other natural means to increase the health, growth and nutrient value of all plant life, as well as stabilize the climate.

RTE remains a leading resource for the research, development, and application of remineralization know-how for gardeners, farmers, scientists, and policy makers. The RTE website is the primary network of remineralization projects and ERW initiatives worldwide.

Because the success of your company and its products is also crucial to the fulfillment of our own mission – the regeneration of soil vitality through the application of the highest quality minerals and trace elements – we have created the RTE Resource Directory.

If you become an RTE Sponsor you will be supporting the genuine need and profound global impact of remineralization and creating lasting value through your tax-deductible contribution. We at RTE are so grateful for your contribution, which furthers the expansion of remineralization worldwide through our diverse projects. We look forward to working together with you and your company.

For a remineralized Earth,

Joanna Campe

Founder and Executive Director

RESOURCE DIRECTORY

The 2026 directory will feature **enhanced search functionality by region, product and service** to ensure visibility to your most relevant audience.

We look forward to hearing from you and having your company featured in the RTE Resource Directory.

Please consider joining forces with us by becoming a sponsor!
